- The scores must be announced when the competition is utilizing the Exit-the-ring Procedure or the Combined Ring Procedure.
- Scores must be posted within an hour of the end of the session in which the final section of the class was held.
- The horses shall be ranked based on a total numerical score.

TIES

- Ties for Arabian Mares, Fillies, Colts, Stallions
 1. Athletic Structure
 2. Breed Type
 3. Quality/Balance
 4. Conformation
 5. Call Judge
- Ties for Arabian Geldings and Half-Arabians/Anglo-Arabians
 1. Athletic Structure
 2. Quality/Balance
 3. Conformation
 4. Call Judge
- In a multiple judge system the same tiebreakers will be used. If a tie still remains, the call judge's card shall break the tie.

RESPONSIBILITIES OF MANAGEMENT

- Provide a separate score sheet for each horse entered in each Performance Halter class.
- Provide a 'runner' to transport the score sheet from the judge to the ring clerk or scorer. This should be done after each horse.
- Provide a ring clerk or scorer to tabulate the score sheet and to maintain the Master Score
- Designate a location on the competition grounds where the Master Score Sheet will be posted.

- Competition management utilizing the Arabian Scoring System shall have the option of choosing either the In-the Ring procedure or Exit-the Ring procedure.
- Determine in advance which ring procedure will be utilized – this information should be published in the prize list. The EEC recommends the use of the In-ring Procedure for the majority of competitions.
- How to decide whether to use the In-the-ring Procedure, the Exit-the-ring Procedure.
 - Safety of the horses, handlers, and spectators is the primary factor in the decision on whether the In-ring Procedure, Exit-the-ring Procedure is most appropriate for a specific competition.
- It is required that scores that are announced following each horse in the Exit-the-ring Procedure but not in the In-the-ring Procedure. What are the wishes of the competition?
- If Exit-the-ring procedure is chosen, competition needs to mark an area of 40-75 feet where the handler walks the horse after trotting into the ring.

USE OF THE SCORE SHEET

- Use a clip board with a letter size page of paper behind the smaller score sheet. This page is handy for recording notes during a class, such as the list of all horse numbers as they enter the ring.
- Refer to AR104 for breed standards
- Refer to Conformation section of AHA Judges Notebook for major/minor faults
- As each horse enters the ring, the judge writes down the exhibitor number on the score sheet.
- The judge will circle a score for each category, indicate any penalties, and

sign the form. If a judge needs to change a score PRIOR to turning in the score sheet, the change must be clearly indicated and initialed.

- No change to a score can be made after the score sheet is turned in.
- Runner takes score sheet to person assigned to scoring – possibly the ring clerk.
- After verifying that a score has been circled for each category and that the score sheet was signed by the judge, the scores are added and scores of all categories for each horse and each judge are transferred to a Master Score Sheet. (This transfer can be electronic through a computer program or by hand.)
- The scores may be announced at this time if the competition is using the In-the-ring Procedure; they must be announced if the competition is utilizing the Exit-the-ring Procedure.
- The Master Score Sheet (below) and all individual score sheets are kept together by the scorer and returned to the show office; these are the official judges' cards for Performance Halter classes. The individual score sheets are retained for three (3) years by the competition as part of the official records.
 - The Master Score Sheets are to be posted within an hour of the end of the session in which the final section of the class was held. They are also retained for three (3) years and are kept with the individual score sheets for that class.

SCORING CATEGORIES

- The categories on the score sheet are listed in an order commonly utilized by judges as they evaluate each horse.
- Athletic Structure –

- The first impression of Athletic Structure is when a horse enters a ring, but the score could justifiably be the last score recorded.

The form is titled "Performance Halter Master Score Sheet" and includes the Arabian Horse Association logo. It has fields for "Show", "Judge", "Class #", and "Class Name". Below these is a large table for recording scores. The table has columns for "Entry #", "Athletic Structure", "Athletic Type (Pointed Ears)", "Quality Balance Substance @ 20%", "Neck Shoulder", "Back Loin Hip", "Legs Feet", "Movement", "Penalties", "TOTAL SCORE", and "PLACING". Below the table is a "TERMS/KEYS" section with two columns: "Arabian Breeding Classes (Spline, Curb, Mares, Fillies)" and "Arabian Saddle and Half Arabian/Anglo Arabian". The first column lists: 1. Athletic Structure, 2. Breed Type, 3. Quality/Balance, 4. Confirmation, 5. Call Judge. The second column lists: 1. Athletic Structure, 2. Quality/Balance, 3. Confirmation, 4. Call Judge. There is a "Score Signature" line at the bottom right.

- Characteristics include, but are not limited to a short back, sloping shoulder, deeper hips.
- Can differ slightly but needs to be suitable to the performance discipline the horse is competing in.
- Breed Type –
 - Overall breed type is emphasized rather than specific parts of the horse.
 - Purebred classes only
- Quality, Balance, Substance
 - There are two opportunities for the judge to observe Quality, Balance and Substance – first when the horse walks on a loose lead and secondly when it walks up to the judge for individual evaluation.
 - Consider QB&S in the same way as in a breeding/in-hand class
- Neck and Shoulder
 - Confirmation as in breeding/in-hand classes

- Back, Loin and Hip
 - Balanced
 - Considered as in breeding/in-hand classes
- Legs and Feet
 - Symmetrical, well-formed feet
 - Entries may use hoof “polish” that is not clear.
 - Short cannon bones, low set hocks
 - Proper leg placement out of shoulder
- Movement
 - Straight, true walk and trot/jog
 - Balanced back to front
 - Quality of gait should be considered over extremes.
- The categories with an asterisk (*) (*Neck and Shoulder, Back, Loin and Hip, and Legs and Feet*) in front of the title comprise the ‘Conformation Category.’ When a total score for Conformation is needed to break a tie, then these individually scored categories are added together.
- Major faults in any of the four categories that comprise the ‘Conformation Category’ cannot be scored any higher than a score of 15 for that category. Major faults in any of the other categories are to be penalized.
