

**AHA PROCEDURES FOR OBTAINING AND USING
INTERNATIONAL SEMEN COLLECTION AND INSEMINATION REPORTS**

Semen Collection and Insemination Reports are required when semen is collected in the United States and shipped to a foreign country. Attached is a request form for this purpose. The fee per report is \$35.00.

Once the request form and fees have been received and processed, we will issue a report that includes the stallion's name and registration number. It will be your responsibility to complete the remaining sections of the report prior to shipping semen.

Send the **original** WHITE form (first copy) to the mare owner along with the semen shipment. Return the **original** BLUE and PINK copies to AHA. Keep the YELLOW copy for your records.

Please note, without the receipt of the original blue and pink copies, we are unable to forward the stallion's blood/DNA report as well as the required pedigree information to the foreign registry where the foal will be registered. If the original blue and pink copies are lost, a new International Semen Collection and Insemination Report Request may be necessary.

REQUEST FOR INTERNATIONAL SEMEN COLLECTION AND INSEMINATION REPORT

Mail: PO Box 173886

I hereby acknowledge that I have read and agree to be bound by and follow the Arabian Horse Association's Rules and Regulations pertaining to International transported and stored semen. I also understand that AHA will investigate non-compliance with these Rules and Regulations and, in the event of such non-compliance, any resultant foals may be ineligible for registration and penalties provided under Article 1035 of AHA's Rules and Regulations may be imposed.

Specifically, I acknowledge that I understand the following with respect to this Request for International Semen Collection and Insemination Report(s). and to the registration of foals resulting from the use of transported or stored semen collected from this stallion:

1. The stallion must have a valid Semen Transportation Permit or WAHO Semen Collection and Insemination Reports will not be issued;
2. One (1) WAHO Semen Collection and Insemination Report along with a covering/breeding certificate is required to register a foreign foal conceived using semen that has been transported or stored Internationally; and
3. The permit will expire upon the transfer of recorded ownership or exportation of the stallion.

NOTE: Stallion owners must ensure that they have purchased a sufficient number of Semen Collection and Insemination Reports prior to the transfer of recorded ownership or exportation of a stallion. Once the ownership of a stallion changes, either through exportation or transfer, the stallion's Semen Transportation Permit will expire and the former stallion owner may no longer purchase Semen Collection and Insemination Reports.

Unused Semen Collection and Insemination Reports may be returned to AHA for a \$15.00 redemption.
